

The Enlightened

DELHI PUBLIC SCHOOL

C H H A T A R P U R

Under the aegis of DPS Society, New Delhi

DPS CHH/May-July'16/Vol.3

From the Editor's Desk

Dear Readers,

Here we are with the third edition of our newsletter. DPS has successfully completed two years and is into its third academic session. During this time, the school has grown and the students have developed life skills such as Personality Development, Sportsmanship and English Speaking abilities. Within two years, the school has given its students a nice big swimming pool and many indoor and outdoor activities that has been a completely new experience. Our school regularly participates in different inter-school events and students frequently get the chance to go out of their hometown and perform in various activities. We have also incorporated some new dimensions of learning like Robotics and Mind Spark. Our students have improved their writing skills and have put in their best effort in this edition of the newsletter. I hope you will enjoy reading "The Enlightened".

Yours truly
Shrey Agrawal-7B

My Learning Journey at DPS Chhatarpur

I got admission in DPS Chhatarpur when I was in Grade 5, which was at the very beginning of the school in the year 2014. I have enjoyed every moment of the school till now. In the first year, we participated in "I Can" project and went to Village Brajpura to teach people. We had a very nice Sports Day also. We also got the chance to go out of Chhatarpur to participate in various activities. I have learnt to speak English in my school. We have gained knowledge in making Robots in our Robotics classes. We also use Mind-spark for Mathematics. This year, our school has also got a swimming pool, which is very huge, I am delighted that my journey has been wonderful in the years I have spent here.

Sports News

The Olympic Games

The Olympic Games will be held in Rio De Janeiro, Brazil from 5th to 21st August 2016. There are many events at the Olympics - 28 different sports in all. Winners will be awarded Gold, Silver and Bronze medals accordingly. There are 207 countries participating in the Olympic Games. India is also participating. I am looking forward to watch the Olympics on television. I wish our country wins many medals at the 2016 Olympics.

Sense Day at LKG & UKG

Pre School enjoyed an educational experience for the senses at our Sense Day in the Month of April.

Our little ones used their 5 senses (Eyes, Ears, Nose, Tongue and Skin) to find out about their surroundings and themselves.

Summer Camp 2016

In my school, the summer camp was organized in May 2016. There were many activities to choose from. I took part in ICT and Music Activities. I was upset that I could not take part in swimming because there was a huge rush and the limited space had already filled up. I enjoyed the summer camp a lot. It came to an end on the 14th of May, 2016. We also got a certificate of participation. I do hope to participate next year as well.

Harshvarhan Shukla-6B

Deforestation

Deforestation means large scale cutting down of trees and burning the forest for personal needs. When forests are converted into homes and industries, they are known as urban areas. That's why our climate is changing. Do you know friends, in one day 2.47 million trees are being cut down to be used as paper and timber? If we keep on cutting the trees, there will come a day when it will be impossible for us to live on Earth. So it is my humble request to everyone to plant more and more trees and desist from cutting them down.

My favourite Game

My favourite game is Chess. It is a brain game. Our brain becomes sharp by playing Chess. Chess is an indoor game. Vishvanathan Anand is the best Chess player in India. I also want to be like him.

किसान

मिट्टी को वे खोद खादकर,
उसमें बीज उगाते हैं।
बीज के ऊपर मिट्टी डालकर।
मिट्टी को नहलाते हैं।
जब फसलें पक जाती हैं।
फिर उनको काटने जाते हैं।
काट - कूटकर उन फसलों को,
एक जगह रखते जाते हैं।
फिर फसलों को जाँच - जाँच कर,
इकट्टा किया करते हैं।
अनाज इकट्टा करके फिर,
बाजार में बेच आते हैं।

My Turtle

One day when I was in the market, I saw a man who was selling a turtle. The turtle was very beautiful, so I asked my mother to buy it for me and I brought it home. Very soon, we become friends and I taught him many tricks. I was very happy, but I observed that the turtle was not looking so happy. He would not eat anything and he had even stopped his movements. Then I realized that somewhere I made a mistake. My Turtle's home is a pond or a river or any other water body, but not my home. So I took my turtle and went to a nearby pond and left it there. Now my turtle was looking very happy and by seeing his happiness I was delighted.

Drama Workshop

A Drama workshop was held in my school from 28th of June to 2nd of July by Mr. Anand Kumar who is a Delhi based puppeteer and dramatist. He was here to teach us acting. During the five day workshop, our mentor, Anand sir gave us very important points regarding drama, such as, Nothing is impossible in our life and if we really want something in life we should just go for it without being nervous. He taught us to face stage fright and gave us tips to overcome it. He explained how to overcome shyness and nervousness. We should be free and confident. He taught us to observe a particular character keenly and adapt his/her body language, walk and facial expression as this will help us to enact the character perfectly. He also demonstrated how to make puppets with the help of newspaper. We enjoyed and learned a lot during the 5 days. I am looking forward to the next drama workshop.

Khushi Agrawal-7B

Drama Workshop

Buddy Reading

Buddy Reading was held in July, where senior students took their buddies to a new world of imagination through books.

Treasure Hunt

A Treasure Hunt was organised for classes 6, 7 & 8 in July. Our children participated enthusiastically and had loads of fun!

Swimming Champs

मौसम और पर्यावरण

प्रकृती ने बहुत सुंदरता के साथ धरती का निर्माण किया है कभी सर्दी कभी गर्मी कभी पतझड़ तो कभी बारिश लेकिन बढ़ते हुए प्रदूषण के कारण वातावरण में बहुत अधिक परिवर्तन आए हैं और बारिश कम होने लगी है जगह-जगह पानी की परेशानी की वजह से सूखा प्रभावित क्षेत्र के लोगों को बहुत कठिन जीवन यापन करना होता है। दोस्तों हमें इस पर्यावरण में बढ़ रहे प्रदूषण को रोकना होगा वरना मानव जीवन खतरे में पड़ जायेगा ।

Oh Dear Shark

O dear shark, you are very fast
You live in water, you are very sharp
You never come last in any race
Your teeth are sharp like a blade
O dear shark, you are very fast.

The Effects of Brain Drain

Whenever scholars and qualified persons leave their own country and shift to another country for occupation, it is known as "Brain Drain." Brain drain causes financial loss to a country. If we talk about our country, India, then we are also at a loss due to Brain drain. Our Government spends heavily on institutes like IIT, IIM, etc and after graduating from these prestigious institutes, students move to foreign countries. India is still a developing country just because of Brain Drain. Indians must utilize their knowledge and skills to develop their own country. If we can control the Brain Drain, we will be at the top in every sphere.

Book Review-Lily Gets Her Wings. *By-Elizabeth Pulford*

I love reading books. Recently I read a book in our school library. The title of the book was “Lily gets her wings” This was a story of a girl named Lily. Lily was a very intelligent and friendly girl. She would always top the class. Lily used to keep a pair of wings with her. But one day, her wings were lost. She was very sad about it. After some days, she got a new pair of wings but those got lost too. By the end of the story Lily comes to know that her classmate Tara had stolen her wings because she confessed as she thought that Lily was very intelligent, just because she had wings. Tara also wanted to be intelligent like Lily. Then Lily explained to Tara that by keeping a pair of wings one cannot be intelligent in studies but one must work hard to be intelligent. Lily forgives her friend and promises her to help her in her studies.

Importance of English

We are living in the 21st century and in this era it is a must to have knowledge of the English language. It is an international language which is spoken all over the world. Nowadays, youngsters prefer to work in MNCs (Multi National Companies) and knowledge of written and spoken English is an essential criteria for getting selected in them. Computers have definitely made our work very easy and it is also designed in English because English is an easy and user friendly language. English also plays a vital role in a student's life. Therefore it would be nice for us if we start learning English right from our childhood.

Lingo—Mess

- Incorrect:** Me and he were absent yesterday.
Correct: He and I were absent yesterday.
- Incorrect:** I likes to play cricket
Correct: I like to play cricket.
- Incorrect:** The English and the Hindi are my favourite subjects
Correct: English and Hindi are my favourite subjects.
- Incorrect:** I come to school in 4 Number bus
Correct: I come to school in Bus Number 4.

Time Management

Managing time is very important for being successful. We must get up early in the morning. We can set up a time table of our day and follow it religiously. It is the key to time management; Time keeps running so we should never waste our time. Proper planning and utilization of time can easily pave the way to success. Hence I would like to conclude by saying that manage your time properly and scale new heights of success.

Taru Rawat-8A

Lost in the Box

There was a boy. His name was Shiva. One day he went to the park with his father. Suddenly, he fell down into a box and the box was closed at once. Now Shiva was moving with the box. His father saw the moving box. He opened the box and Shiva came out.

Suyash Asati-2B

Who Am I?

I am a fruit. I am green and yellow in colour. I have a big seed in my stomach. I am available in the summer season. I am sweet in taste. Children like me very much. Who am I?

Answer: Mango
